

Wondering how much COVID-19 is currently spreading where you live? Click on the CDC link below—and enter your state and then your county. Find out if the level of spread in your community is high, medium, or low. Community spread in Milwaukee County is currently HIGH, which means that masks should be worn in public when you're indoors and on public transportation. Need more information about COVID-19 or vaccinations? Call our warmline at (414) 465-9504.
